

EXHIBIT 6

DIFFERENCE IN DELIVERY COST – STAMPED AND METERED LETTERS

We reviewed USPS Unit Delivery Cost data and found that stamped and metered letters have different delivery costs: 9.82 cents compared to 11.28 cents, respectively. The difference of 1.47 cents is driven by the per unit cost for city delivery of metered letters. A summary of the city and rural per unit delivery costs is below. (Table 1)

Table 1. USPS Unit Delivery Costs, 2018¹

	City Carrier			Rural Carrier Total (cents)	City Plus Rural (cents)
	In-Office (cents)	Street (cents)	Total (cents)		
Stamped Letters	3.27	5.51	8.77	1.04	9.82
Metered Letters	3.73	6.30	10.03	1.26	11.28
Difference	0.46	0.80	1.26	0.21	01.47

To put this difference in perspective, stamped letters account for 57% of volume but less than 54% of the total delivery costs for stamped and metered letters combined. (Table 2)

Table 2. Total Stamped and Metered Letter Delivery Costs, 2018²

	Per Unit Delivery Cost (cents)	Volume (000s)	Total Delivery Cost (\$000s)
Stamped Letters	9.82	9,617,105	\$944,081
Metered Letters	11.28	7,191,067	\$811,468
Total	10.44	16,808,172	\$1,755,549
% Stamped Letters		57.2%	53.8%
